Structure**Summary of Items Observed:**

The Caltrans Quality Assurance Inspector (QAI), Scott Croff, was present at the Self Anchored Span (SAS) job site to observe the scheduled fabrication of the SFOBB project.

The QAI was tasked with the installation of the Structural Health Monitoring (SHM) systems that are being placed onto the SFOBB structures. The accessible equipment and the operating conditions were monitored / verified.

The QAI reviewed contract documents and assisted the Structural Materials Representatives (SMRs) with pending contract documents at pier 7. The QAI used the welding report submittals and welding report packages to cross reference the welding and inspection status as reported by ABF, along with QA records to identify the overall status of work reported as complete and in progress. The QAI also continued reviewing the contractor's welding report packages for conformance with the contract requirements. This work was in progress at the end of the shift.

Summary of Conversations:

The QAI relayed the status of the report reviews and work in progress to the Structural Materials Representative Aaron Prchlik. There were no other notable conversations.

Comments

This report is for the purpose of determining conformance with the contract documents and is not for the purpose of making repair or fit for purpose recommendations. Should you require recommendations concerning repairs or remedial efforts please contact Gary Thomas, (916) 764-6027, who represents the Office of Structural Materials for your project.
